

Shivam Jha

Target Role: Flutter Developer — Mobile Application Developer — Software Engineer

+91 6362303308 — shivamjha456@gmail.com — [LinkedIn](#) — [GitHub](#)

Professional Summary

Flutter Developer with **2+ years of experience** designing, developing, and optimizing **scalable Android and iOS applications**. Strong expertise in **Flutter, Dart, Clean Architecture, MVVM, and state management**, with proven success in **performance optimization, REST API integration, SQL tuning, CI/CD pipelines, and AWS cloud deployments**. Experienced in **end-to-end feature ownership**, production monitoring, and delivering **high-traffic applications** serving **thousands of active users**.

Core Skills

Flutter — Dart — Android Development — iOS Development — Clean Architecture — MVVM — REST APIs — Laravel — Node.js — MySQL — SQL Optimization — AWS EC2 — Amazon RDS — Docker — Firebase — GitHub Actions — CI/CD

Tools & Platforms

Android Studio — Xcode — Git — GitHub — Postman — Firebase Console — AWS Console — Docker CLI — ubuntu

Professional Experience

Flutter Developer / Mobile Application Developer
JippyMart

Aug 2025 – Present

- Developed and maintained **production-grade Flutter applications** for customer, merchant, and driver platforms used by **thousands of users**.
- Optimized **SQL queries and indexing**, reducing API response times by **30–40%**.
- Improved database performance by **50%** through schema optimization and query refactoring.
- Integrated Flutter applications with **Laravel REST APIs** for authentication, orders, and workflows.
- Deployed, monitored, and scaled services on **AWS EC2 and Amazon RDS**.
- Implemented **CI/CD pipelines using GitHub Actions** for automated builds and deployments.
- Owned features end-to-end, from requirement analysis to production monitoring.

Senior Flutter Developer
FindMytuition

Mar 2025 – Aug 2025

- Built and shipped **cross-platform Flutter applications** for Android and iOS.
- Integrated **Firebase Authentication, FCM, and Analytics**.
- Designed responsive UI flows using **state management best practices**.
- Implemented **JWT-based authentication and SSL pinning**.
- Optimized **MySQL queries and local caching** to improve application performance.

Application Developer
IndataAI

Feb 2024 – Feb 2025

- Delivered **production-ready Flutter applications** for Android and iOS.
- Migrated backend services to **Node.js microservices architecture**.
- Integrated **Firebase services** for notifications and analytics.
- Applied **dependency injection, modular architecture, and clean code practices**.
- Wrote unit tests and managed **Play Store and TestFlight releases**.

Projects

JippyMart Customer App (Android & iOS)

Role: Lead Flutter Developer

[Play Store Link](#) — [App Store Link](#)

Flutter, Laravel, MySQL, AWS EC2, Amazon RDS, Razorpay, REST APIs

- Built a **high-performance food delivery application** with real-time ordering.
- Implemented **Deep Linking (Android App Links)** for navigation from notifications and external URLs.
- Integrated **secure payment workflows** using Razorpay.
- Reduced API latency by **30–40%** through SQL tuning and indexing.
- Improved app stability using **performance profiling and lifecycle optimization**.
- Designed **custom animations** and smooth UI transitions.

JippyMart Merchant App (Android)

Role: Flutter Developer

[Play Store Link](#)

Flutter, Laravel, MySQL, AWS

- Built merchant tools for **catalog, pricing, and order lifecycle management**.
- Optimized order synchronization using **database normalization**.

JippyMart Driver App (Android)

Role: Flutter Developer

[Play Store Link](#)

Flutter, Laravel, Google Maps, REST APIs

- Developed delivery workflows with **real-time order tracking**.
- Reduced payload size to improve **network efficiency and responsiveness**.

Education

Bachelor of Engineering (Computer Science and Engineering)

Jain College of Engineering and Technology

2019 – 2023

- CGPA: 7.6
